DETAILED ACTION

1. Claims 1-20 have been examined and are pending.

Claim Objections

2. Claims 1, 4, 7, 8, 11, 12, 19 and 20 are objected to because of the following informalities:
The claims in the preamble recite padding scheme that ensures the security of cryptosystems "not using random numbers" to cryptosystems. However, the claims in the body recite supplying the second bit string as "random number input". It is not clear whether the "random number" is or is not being used in the cryptosystems. Appropriate correction is required.

Dependent claims 2-3, 5-6,9-10 and 13-18 are also objected by virtue of their dependencies.

Conclusion

3. Prior arts made of record, not relied upon:
